Type of Comment	<input type="text" value="Objection"/>
Type	<input type="text" value="neighbour"/>
Comments	<input type="text" value="Hello I own 5 st Giles Close. This application refers to a two storey extension which runs along my rear garden boundary. The application does not show materials to be used for construction or the distance between the gable end wall and the boundary, neither does it show any trees. I will support the application provided the entire end gable wall which is adjacent to my rear boundary fence is constructed in Heather Brown facing bricks to match the existing masonry and the wall is continued at 6ft high level to the rear of no 13 boundary, and also provided my fir tees are not touched. If these requests can be met I will arrange for my fir trees to be trimmed in order for the extension to be built and permit builders to enter my garden to provide access for construction of the gable end wall again provided the fir trees are not touched except by my contractor. Thank you Peter Howells"/>
