Subject: CALA Homes

Dear Planning Consultation,

Re Application no. 19/00616/OUT

Thanks for the letter re the above home development in Fritwell by CALA homes.

I would like to register that I am still opposed to the erection of these homes and against the development of this site.

My reasons

I choose to live in a village to have a quieter life style The more homes that are developed , the most traffic this will cause. This will increase pollution, air pollution increasing the risk of asthma and respiratory related illnesses. The more homes the stress this brings which will have an impact blood pressure related illnesses, stress and anxiety. People live in the village to embrace the tranquility that brings. There are not enough GP appointments and inflicting illnesses onto an already aging population which will have an impact on health and pressure on already stretched services.

Travel in the county and Bicester is already at breaking point which delays people getting home which has an impact on family life. Building more houses in the village is going to again create a delay on people getting home.

Developments are popping up all over Bicester and the Heyfords and it's destroying our town and rural villages.

I am strongly AGAINST the development of CALA homes in Fritwell.

Best wishes

Penny
