Comments	<input type="text" value="Living adjacent to the Oxford Road for many years, I have seen the increase in traffic and the urbanisation of the area due to the installation of traffic lights and their associated problems (increase in noise due to aggressive driving trying to 'beat the lights', and safety issues with the merging of two lanes into one in both directions). At peak times there are long queues in both directions, which will only be compounded if this planning application goes ahead. At the very least, 850 extra houses means an extra 1,000 cars."/>
