Comments	<input type="text" value="I wish to make a formal objection to this application for the proposed development. The access proposed to the new development utilising the existing junction on Oxford Road is unsuitable and will result in an unsafe arrangement from its forecast increased traffic flows and bus usage proposed. The existing road infrastructure was not designed to accommodate such increased flow usage safely and will result in a dangerous and unnecessary conflict with existing residents (including school children), using the roads, e.g. Songthrush Road, travelling in their cars and as pedestrians/cyclists. In addition the increased traffic noise and resulting poor air quality from the increased traffic using the existing roads such as Songthrush Road resulting from such a large proposed development is unacceptable for the existing residents."/>
