RE: 19/01047/OUT

PROPOSED LONGFORD PARK EXTENSION

Dear Sir or Madam

With regards to the above, I write to strongly object to this proposed building.

My reason is TRAFFIC.

This area is already congested as mentioned most days on RADIO OXFORD.

850 new homes = 850 vehicles at a minimum.

In the locality, there are Bannatynes, Banbury Rugby Club, Cote Field Garden Centre and even JS Antiques (a few years ago, he fought long and hard before planning permission was finally granted how things change) - together with the new and existing property all add up to many vehicles especially at the weekends.

Who would suggest placing the local football club right next door to the rugby one? Imagine the traffic when both play at home, United. Would be better staying near its present location for continuity of their supporters.

Thanking you for your time reading this
Yours faithfully
Jane Home
