Comments	<input type="text" value="The Hobby road and Songthrush road where the proposed developments access is planned is already running at full capacities and they are already congested. These streets are never designed to be access roads to any new developments and this will increase the traffic in our quiet residential streets and will impact our quality of living. I will go one level above and say this proposal is a cheating to all the residents of above mentioned streets because we all bought houses in this development s with the promise that these all going to stay as it is now without any more developments and we can have a quiet environment and enjoy the nature. One more important thing to note is the proposed access passes by Longford park primary school,which is a big risk in peak hours."/>
