Comments	<input type="text" value="As a long ford park resident,I strongly object this new development proposal and I want to bring your attention on the following points, 1. The streets are already congested, as they were not designed as access roads. Also the proposed access passes by a school. 2.The bank side road/oxford road towards the town center is already congested .Currently it doesn't have enough capacity to hold the traffic .So making further room for a new development of 850 homes, will makes the traffic a nightmare and our daily travel to and from work as well as travel to kids schooling becomes a hell.Before considering any development on the south side of banbury, first you need to fix the bigger problem of improving the infrastructure bottleneck mainly around connectivity and peoples amenities. 3.The existing longford development itself is quite big with enormous number of houses and currently we left with only a few green open spaces.Snatching further green open spaces for new developments is completely unacceptable. 4.As a resident of long ford park, I feel betrayed because we have been promised that there won't be any further development in this side of the estate and will remain as a quite residential area, which it is currently. In summary, people like me(which i think most of the longford park residents are) who like to live in a quite peaceful residential area would consider relocating outside banbury due to this unsustainable housing developments spree ."/>
