POST ROOM

Dear Sir or Madam,

Ref: 19/01047/OUT - Samantha Taylor

Thank you for your letter dated 29th April regarding the above application. My objections have not changed and for the same reasons.
TRAFFIC.

I frequently attend the Eye Hospital at the JR Oxford and travel along the A4260 to Kidlington Park and Ride. On many occasions, we are queuing from the Bodicote Flyover to the Adderbury Traffic Lights junction with the Aynho road.

If 850 houses are built, how will the cars exit from the new access road? Perhaps yet another set of lights then joining the already queue causing a knock on effect back to the Horton Hospital - result - gridlock.

Similar on the return journey is often the case as mentioned on Radio Oxford Traffic Bulletins.

Thank you for contacting me and your time dealing with these ongoing applications.

Yours faithfully
