| Type of Comment | <input type="text" value="Objection"/> |
| Type | <input type="text" value="neighbour"/> |
| Comments | <input type="text" value="I find the Access suggestions for this application appalling. Longford park road is already a busy road, it's unsafe to cross, no clear road markings the amount of near misses when we are walking our children to school is ridiculous. As for the location of the houses this will be directly next to my house, we are currently having to pay a property management company to maintain the greenery which is where you are planning bridges and building houses, this is something that will need to stop especially as houses are backing on this. For the mental well-being of the families of the houses which are affected I think have not been considered at all. The build will be directly next to us which will result in noise pollution, let alone the dirt, the mess. We moved onto the estate in 2014 when our street was still being built. We lived through this. We know how this is going to effect us. Especially when we want to simply open a window, let alone being able to look out of a dirty window. I understand it's something that the government have requested however we are too close, we have lived here to long to become settled to have more houses built where we will be back in square one like the first day we moved in. Please consider the community and our homes and our children's safety."/> |
