Comments	<input type="text" value="I write to object to this planning consent. The roads within longford park are already congested due to their narrow construction and the sheer volume of cars parked on roadside reducing the width of the road to single line traffic. The estate is already being used as a cut through from bankside and I have witnessed not only road traffic accidents but also very near miss traffic collisions at the cross roads by the primary school. This area has already become dangerous to drive through due to the poor traffic management or lack of it in road design and layout!! The poor design of the road layout throughout the estate does not allow for increased traffic and safe access for emergency vehicles."/>
