Comments	<input type="text" value="I object to this development because of its impact on the environment. The land is particularly favoured by wintering lapwing flocks and winter thrushes. The site is also home to finches, song thrush and deer and other mammals. The land is adjacent to the high value Cherwell valley site where these birds still breed. The effects of the land being held in countryside stewardship recently will be rendered useless. The impact of yet more dogs, cats and particularly traffic with ensuing air pollution, light, litter and noise will be heavy. Bodicote has suffered enough from the strangulation of relentless unwanted development and deserves to be spared this addition while the environment, roads and facilities locally and in the town should cannot sustain it."/>
