Comments	<input type="text" value="What infrastructure do you intent to put in for this ridiculous sized development? We need more doctors surgery's as they are under immense pressure with all the patients they now have to take on due to increased housing. I know of lots who have left as they just cant do their job properly due to stupid 10minute slots for numerous patients in a day. Also we need another secondary school as class sizes have increased so much it is having an impact on pupil learning. Plus the roads cannot cope with the increased traffic levels and parking is hindering and causing congestion every where. Please think this through before you make these decisions."/>
